SUMMARY

I am a self-motivated student, always ready to enhance my skills with the most dedication, and I believe in learning through hands-on experience and development work.

I always believe in staying organized in my studies and work and want to keep a learning attitude in each stage of my life.

I am looking forward to expanding and utilizing my skills and knowledge. Flexible to work in any environment as required. My interests lie in programming, problem-solving, web development, and software development (in general).

PROJECTS

Travel and Tourism Website

February 2024 - Present

- Developed a responsive travel and tourism website using React.js and Material UI.
- Implemented scroll animations using the AOS library to enhance user experience.
- Designed user-friendly interfaces to provide seamless navigation and engaging content presentation.

Movie WebApp

December 2023 - January 2024

- Developed a single-page application using React.js and Material UI to showcase movies and TV series [TMDB API].
- Implemented multiple pages using React Router for seamless navigation and user experience.
- Integrated search functionality to allow users to easily find specific movies or TV series.
- Designed and implemented bookmark functionality for users to save their favourite movies or TV series.

CareConnect - a charity website using Ethereum blockchain

June 2023 - September 2023

- Developed a stunning, responsive interface using HTML, CSS, React, and Tailwind for seamless donation experiences, fostering donor engagement.
- Leveraged the Ethereum blockchain for secure, transparent donations & immutable records, eliminating intermediaries, and maximizing impact. Used ETH cryptocurrency across the website for handling transactions.
- Facilitated over more amounts in donations for various causes and initiatives, contributing directly to specific impact outcomes.

Weather WebApp

January 2023 - February 2023

- Vanilla Javascript, OpenWeatherMap Api

EDUCATION

B-Tech in Computer Science and Engineering

RVS College of Engineering and Technology · Jamshedpur, Jharkhand · 2025

- Design Analysis and Algorithm, Operating System, Database Management System, Cyber Security, Blockchain Technology, Web Technology, and Compiler Design.

Diploma in Computer Science and Engineering

AL- Kabir Polytechnic · Jamshedpur, Jharkhand · 2022 · 83.33%

- Operating System, Relational Database and Management System, Cloud Computing, Computer Network, Data Structure and Algorithm, Object-Oriented Programming (C++/Java), Software Engineering and Development

SKILLS

Programming Languages and Technologies: C, C++, Java, JavaScript, Solidity, Git, and GitHub.

Front-end Development: HTML, CSS, Bootstrap, Tailwind CSS, SASS, JavaScript, TypeScript, ReactJS, Material UI, React Router.

Backend, Authentication, and Database: NodeJS, ExpressJS

CERTIFICATIONS

Frontend Development

Coursera · 2023
